***Allowable Subject Matter***

Claims 2-10, 12 -18, and 20-34 are allowed. The following is an examiner's statement of reasons for allowance: Prior art discloses several cutting instruments that include an inner member with an offset cutting surface disposed within an outer member with a cutting surface, so that relative rotation of the members will cause the cutting surfaces to move out of alignment and cut an object. The present invention includes a combination of many components that are not disclosed or taught in the prior art. Prior art does not disclose a device with the cutting mechanism described above in combination with a spring to bias the cutting surfaces in a first orientation, flutes and grooves that align the actuator with the housing, a threaded driving mechanism, or a reduced diameter portion that is easier to insert into the body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
